Add. / 15F.-1, Sec. 1, Wenhua 2nd Rd., Linkou Dist., New Taipei City 244008, Taiwan (R.O.C.)

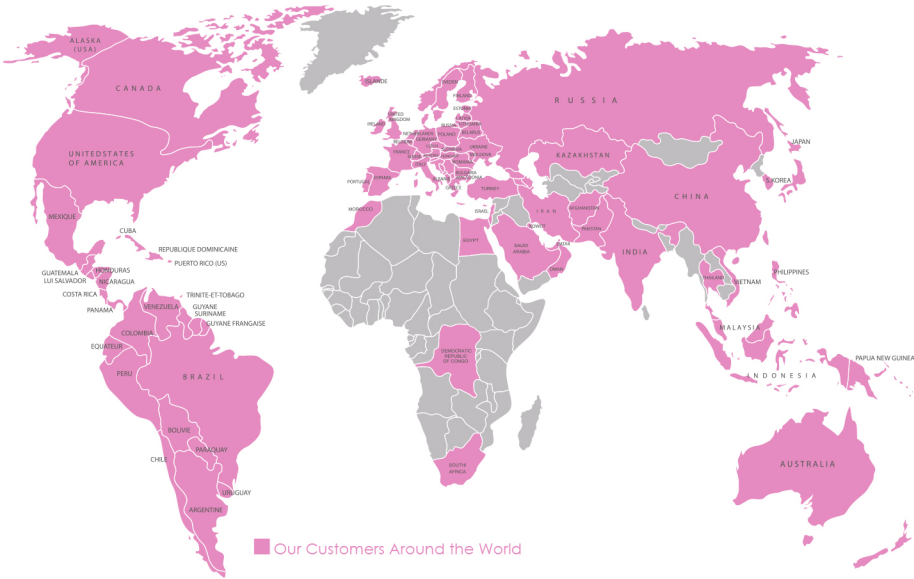

Our Customers Around the World

— Your Professional Nail Factory

COSMEX is specialized in the design and manufacture of nail lamps more than **10 years**. With a professional research and development team, we possess years of experience in tooling and mass-production, which makes us have much know-how about:

- Solve possible issue on design in early stage.
- Achieve customer original concept.
- Provide good quality products.
- Realize end-user demand.

COSMEX is always at the forefront of innovative technology in the nail industry, and has offered ODM services to numerous brands from 56 countries all over the world.

Cosmex established its own gel laboratory in 2011 for the research and development of new gel systems, dedicated to the goal of completing customer satisfaction. With experience in producing nail lamps, we successfully find the perfect combination between GEL and NAIL LAMP. All of our products are made in Taiwan- Research & development, manufacture, filling and packaging, every step of the production is taken place in our facilities.

Cosmex provides professional ODM services, even from the very beginning - a concept, an idea - we will work with you step by step, to make sure all the demands are satisfied.

Cosmex technical support team is a group of diligent engineers who have not only equipped with academic background and abundant experience, but also the passion for the pursuit of perfection and beauty. Many new concepts that have not yet been applied to the beauty industry, are made possible by Cosmex! Therefore we are proud to say, when there is a will, there is a way!

Our professional LED light board design

Optimal light board design by optical simulation and numerous gel tests to ensure the least heat emission & No-Blind-Spot LED bulbs distribution.

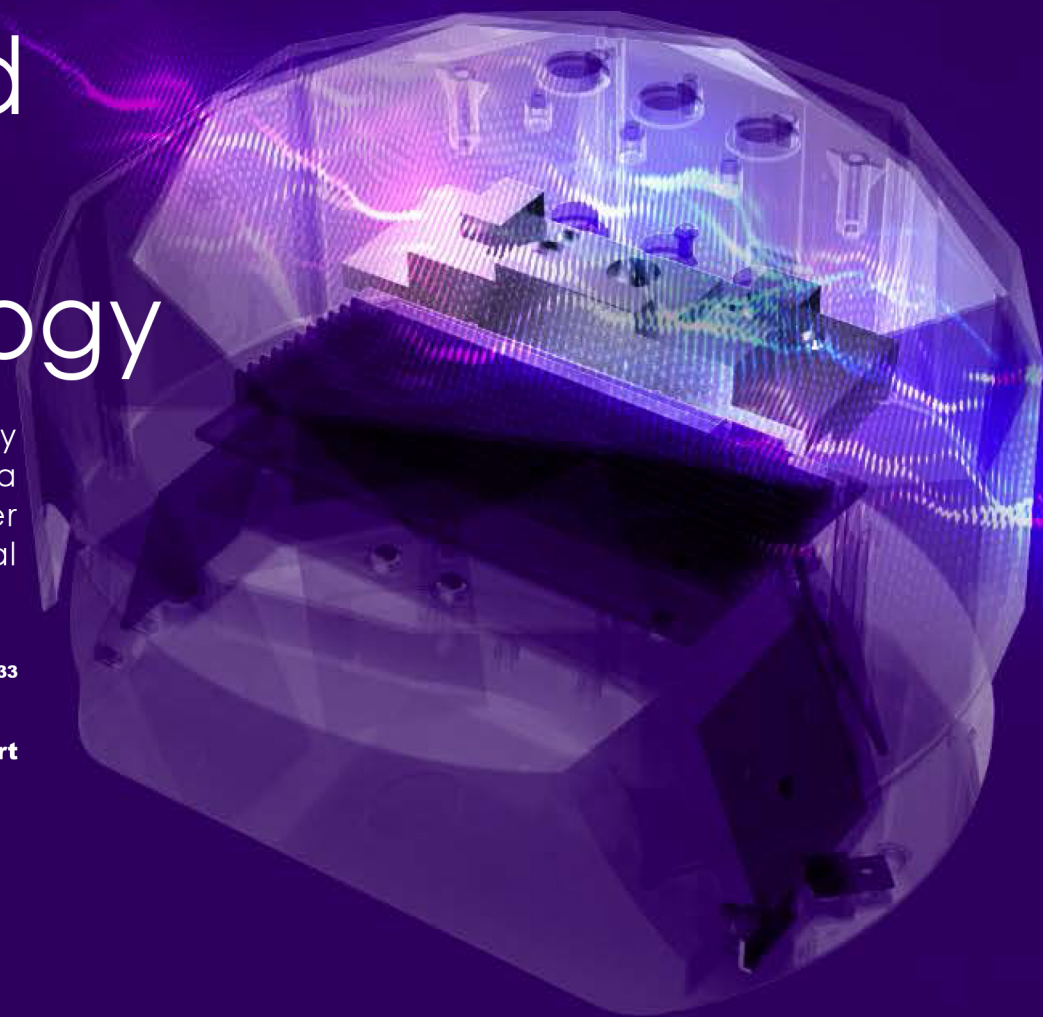

Through countless tests, the intuitive and ergonomic handplate achieve better curing performance and comfort.

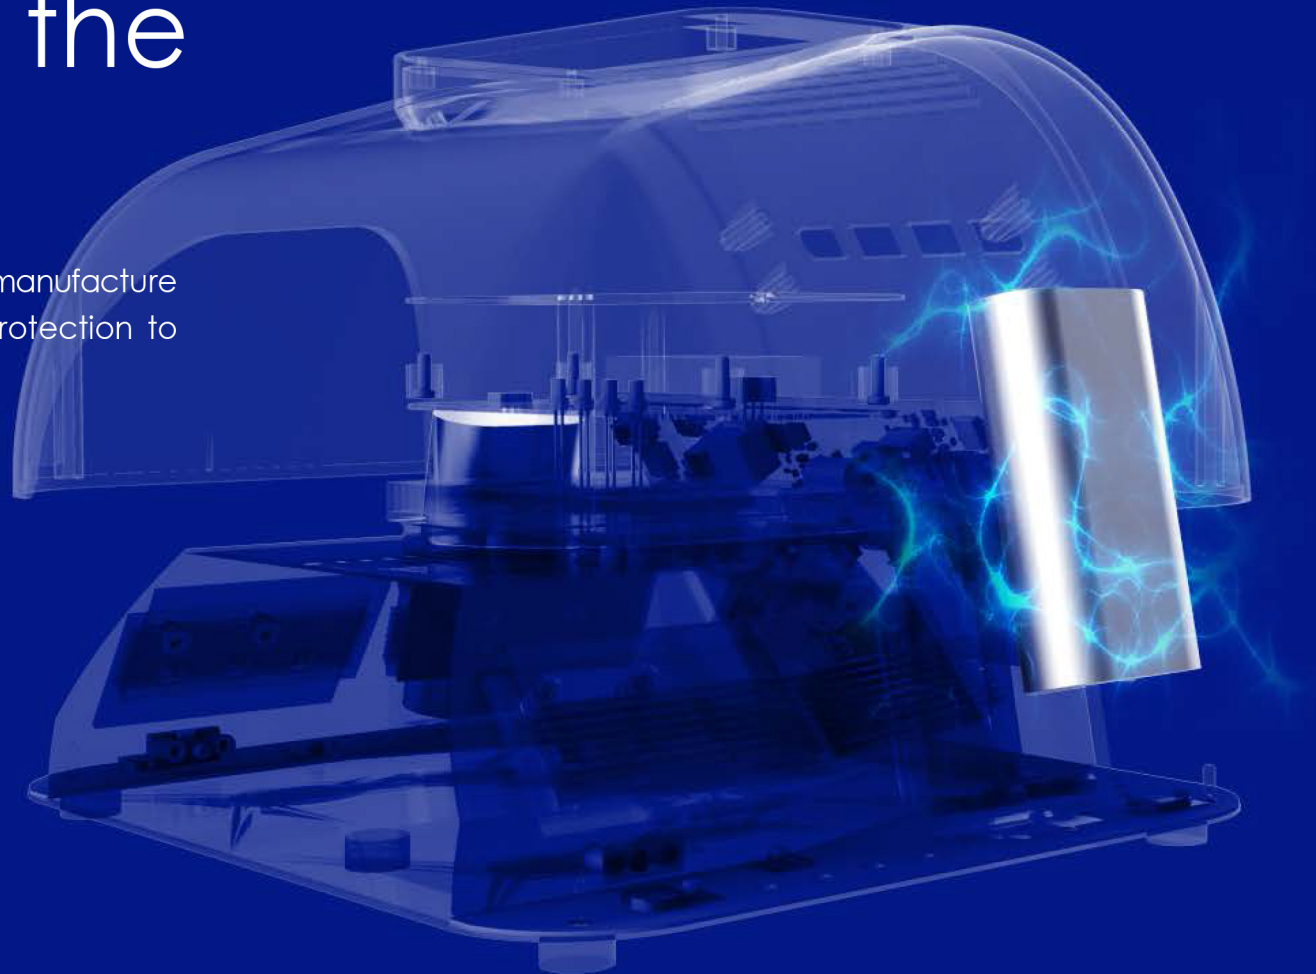

High quality and EMI free power control technology

The key components we use are high-quality, specially selected from world-renowned enterprises in America and Japan. Guarantee to maintain reliability under different environments, and pass international certification standards.

Highest safety standard of the battery

We apply high-quality circuit design to manufacture cordless nail lamps. It provides dual protection to achieve the highest safety standard.
